SUMMARY

Hello! I'm Chitra! I am a former wall street Immigration Paralegal and a former tech recruiter. After 6+ years of working with software engineers & engineering teams, I decided to become a developer myself! Now, I no longer have to convince the US gov'n't of why software engineers are amazing.....but I do have to convince you that I can become an amazing engineer and that more than anything, I have the will to learn! So here I am looking for a Developer position!

TECH SKILLS

HTML5

CSS3

JavaScript
