## SUMMARY

Hello! I'm Chitra! I was raised in New Jersey, USA and have moved to Toronto to start this Developer journey. I bring over 8 years of corporate work experience which I believe makes a well rounded individual. I found my passion in Web Development while working with technology experts in my prior field of Immigration Law. I found that in communicating my needs to developers, I was getting frustrated with not being able to build the application myself. So this is my journey in doing exactly that!
